Work on I-94 eastbound from Gladstone to Taylor to begin next week

According to the North Dakota Department of Transportation (NDDOT), construction work will begin next week on the eastbound lanes of Interstate 94 from Gladstone to Taylor. Pavement repairs and hot bituminous pavement will be part of the project. Motorists can expect minimal delays.

During construction:

- Traffic will be reduced to one lane.
- A width restriction of 16 feet will be in place in the active work zones.
- The speed limit will be reduced to 65 mph when traffic is down to one lane and 40 mph when flaggers are present.
- Flaggers may be present when necessary to control traffic.

The project is expected to be completed in June.

Rear end crashes are the most common in work zones. Motorists are encouraged to allow extra distance between their vehicles and the vehicles in front of them, use extra caution and obey flaggers and posted signage. For road information, call 511 from any type of phone or go to the website: www.511.nd.gov.
